For the semester(s) attended, transient students must be enrolled exclusively at Yeshiva University (i.e., they cannot take individual courses while continuing their studies at the home institution).

Transfer Students: Applicants who have attended another college must satisfy the same requirements as applicants who come directly from high school. A student who earns credit in any discipline must consult with the department chair before registering for advanced courses in that discipline.

AP credit is applied automatically once the Office of the Registrar receives an official score report from the College Board. Students must request that their scores be sent to Yeshiva University (code 2990), which they can do online. Students need not fill out any additional forms.

Credit and Exemption

Credit for AP exams are awarded only for a score of 5. Scores of 4 or lower do not earn credit. This includes the AP Jewish History as well. No credit is given for AP English Literature.

Pre-med students: Pre-med students who have taken the AP Biology course and examination, especially those not planning to major in Biology, should be aware that they may not be prepared at a sufficient level for serious consideration by medical schools unless they take biology courses in college.

Students who do not take advanced biology electives are advised to retake Principles of Biology I & II instead (but will not be allowed to count both the AP and these courses retaken at the college for credit).
